

CIR/026/2023-24

Dear Parents,

Greetings to you!

We are pleased to announce '**Manipal's Junior MindSpark**', the Annual Science exhibition. The event is of great importance as it offers students an opportunity to put in practice the class room learning. This invariably means additional research, creative thinking, learning from those with experience and most importantly the realization that there are certain things, which cannot be learned from books alone but need real life experiences. The exhibition will also offer our students an opportunity to hone their presentation and communication skills.

The following are the details of activities

TOPICS			
ACTIVITY	DRAWING	SCIENCE EXPERIMENT	MODEL MAKING
Foundational stage (Nursery to Class I)	--	--	Presentation of Model related to the EVS lessons they have learnt
Junior School (Class II to IV)	Go Green, Live Clean Cherish life, Celebrate Earth.	Demonstration of any concepts learnt in class.	--

Exhibition in the school : February 17, 2024
Time : 08.30 a.m. to 11.00 a.m.
